OBJECTIVE

I'm Full Stack Developer experienced in Python and have strong abilities in HTML, CSS and SQL. Highly Self Motivated Programmer seeking a challenging software engineer opportunity where my technical expertise and academic skills will add value to organization growth.I am confident in my ability to design, develop, deploy, and maintain web applications from scratch.

EXPERIENCE

FULL STACK DEVELOPER

Developers Institute. Ramat Gan | Jan 2023 - Apr 2023

- Junior full-stack developer specializing in Python
- Strong foundation in various programming languages and frameworks.
- Experience working on real-world projects individually and collaboratively, with a particular focus on Python, HTML, CSS, and JavaScript.
- Using popular Python web frameworks, like Django, to build scalable and robust web applications.
- Experienced in database management and data analysis using SQL and popular libraries such as Pandas.
- Overall, the bootcamp has prepared me for a successful career in full-stack web development.

IMAGE ANALYST

IDF. Tel Aviv | Dec 2020 - 2022
